## CHESTER.

### DESCRIPTION AND GENERAL DETAILS.

**HISTORY.**—Chester, the oldest settlement in the State, is situated on the right bank of the Delaware, 15 miles by river and 14 miles by rail south from Philadelphia, with which it is connected by the Philadelphia, Wilmington & Baltimore Railroad and the Philadelphia & Reading Railroad. Its latitude is  $39^{\circ} 50' 45''$  north, longitude east from Washington  $1^{\circ} 39' 27''$ , and from Greenwich  $75^{\circ} 22' 5''$  west. It was constituted a corporate town as early as 1690. The ground on which it is built was at one time the bed of the Delaware river, the channel of the latter being 82 feet deep opposite the city. The Indian name given to Chester is Mecoponaca. The Swedes named it Upland, and William Penn named it Chester in compliment to his friend Pearson, who was his *compagnon du voyage* from Europe, who requested that it should be called "Chester, in remembrance of the city from whence I came."

The first record of a court is in 1676, and of a Chester county court 1681. In 1682 Chester is named for the first time upon its records.

**EXTENT.**—The city extends from Lamokin creek on the west to Ridley creek on the east, and from Upland Borough on the north to the Delaware river on the south, and contains three wards, viz: North, South and Middle.

**HEALTH.**—Chester is peculiarly exempt from miasmatic diseases, as the tides of the Delaware carry off every source of malaria. The well water is impregnated with chalybeate and saline matter, whose medicinal qualities contribute to the general health. The spring water is of the purest kind, which contributes much to the superiority of the celebrated Delaware county butter, so much sought after in the markets of Philadelphia and other cities. Exceptional to the diseases

on water courses. Chester has very few if any agues or intermittent fevers, and the health of the city is attested by the oldest inhabitants. Dysentery is seldom known here, and the typhoid is rare. Liver complaints and bilious complaints find no foothold in this city.

**POPULATION.**—In 1702 it "was a bare place, without a fort, but there were some houses built there." In 1708 "one hundred houses," or say 500 population. In 1820, 657. In 1830, 848. In 1840, 1,000 on 1850, 1,667. In 1859, at the time the first directory was published by Mr. William Whitehead, 4,107. In 1870, 9,485. In 1879, we estimate 15,888. In 1880, 20,000

**GAS AND WATER.**—Gas was introduced into Chester in 1856. Previous to 1859 wells and pumps supplied the public with water. During that year an artesian well was sunk by Mr. Samuel Eccles, to supply water for his manufactory.

The South Ward Water Works is situated at the foot of Fulton street, on the Delaware river. President, John A. Wallace; Secretary and Treasurer, Robert Anderson; Superintendent, H. C. Eyre. The price of the water is \$10 per hydrant.

The Chester Gas Company is situated on Welsh street, below West Third, and was incorporated April 4, 1856. President, Superintendent, and Treasurer, Jonathan R. Johnson; Secretary, J. O. Deshong, Jr.

## TRANSPORTATION.

Twenty years ago the P., W. & B. R. R., as now, connected with Philadelphia; nine trains to and from that city ran daily; now there are 36. The Philadelphia and Reading Road also runs through the city. The Wilmington Steamship Company of Delaware run freight boats from here to New York, Philadelphia, and Wilmington, and several steamboats plying on the river, land here regularly during the summer months. Stages run regularly to Upland and Media, and Upland and South Chester. For time table see daily papers.

## HALLS.

The popular hall of Chester is the Holly Tree Hall, situated on East 7th street near Edgemont avenue. It seats 650 people, and the agent and janitor is George J. St. Leger, 408 E. 8th. The other halls are the National, Cutler's, and Fulton.

### **MANUFACTURERS.**

Although surrounded by an excellent agricultural country, Chester is essentially a manufacturing city—many of her establishments having a national, and in one case at least an international reputation. Who has not heard of Roach's Ship Yard? Besides this business, which is conducted under the incorporated name of "The Delaware River Iron Ship Building and Engine Works," the firm of Robert Wetherill & Co., is deserving of mention as manufacturers of general machinery, Corliss Steam Engines, etc. This is the firm who made such an extensive display at the Centennial, and they are now reaping the reward of their enterprise by building engines, pumping machines, etc., for distant lands.

There are others deserving of mention as well known and long established.

# CHESTER ACADEMY,

S. E. COR. BROAD AND POTTER STS.,  
CHESTER, PA.

This School is opened to both sexes. Its courses of study embrace all branches taught in the best organized academies and seminaries. The personal care of the Principal, who has been a teacher over twenty years, is given in all the departments. A teacher to every 10 or 12 pupils is employed. The courses of study are, ENGLISH and SCIENTIFIC, CLASSICAL (for college), and the TEACHERS' COURSE.

Thoroughness is our cornerstone. No bad boys admitted. No one need apply for admission who is not willing to work hard.

There are three terms a year, beginning in September, December, and March. Books free, charges moderate. For further information see pamphlet circular, sent free to any address.

# \$1000 REWARD

For any case of Blind, Bleeding, Itching, Ulcerated, or Protruding PILES, that DeBing's Pile Remedy fails to cure. It cures the itching, absorbs the tumors, gives immediate relief, cures cases of long standing in 1 week, ordinary cases in 2 days. \$1 a bottle, sold by all druggists. Sent by mail. Prepared only by Dr. J. P. MILLER, Phila., Pa., and no genuine unless the wrapper and bottle contains his signature and a full list of names.

Mrs. Ellen Johnson, 27 Spruce St., Philadelphia, wrote April 16th, 1875: "Dr. J. P. MILLER, Dear Sir:—Your DeBing's Pile Remedy cured me in one week after I had used all the medicines I could hear of. I was told by a prominent surgeon in this city that my only chance for a cure was an operation, which he wanted to charge me fifty dollars for."

J. P. Cooper, Druggist at Savannah, N. C., wrote Sept. 11th, 1876: "Dr. J. P. MILLER, Dear Sir:—I have been selling DeBing's Pile Remedy for several years, always recommending it, and some of my customers have cured. I never heard of anything but cures."

Being a regular graduate of medicine and surgery, and for the past 10 years having made the treatment of Piles, Fistula, Skin and Blood Diseases, and Nervous Debility a specialty, persons in need of our services are invited to write or call at our office. Office Hours: 9 to 12 a. m., and 2 to 5 p. m.

J. P. MILLER, M. D., S. W. cor. Fifth and Arch Streets, Philadelphia, Pa.

W. B. Stewart, Practical Druggist at Chambersburg, Pa., wrote May 5th, 1879: "Dr. J. P. MILLER, Dear Sir:—I have your medicine, DeBing's Pile Remedy, always in stock, and sell it because it cured me of a 12 year's standing, and can honestly and do most cheerfully recommend it."

G. B. Cole, M. D., of Drug Firm of Cole & Wick, at Ashland, O., wrote April 22d, 1879: "Dr. J. P. MILLER, M. D., Dear Sir:—We are having sales for your DeBing's Pile Remedy through my recommending it, I being a practicing physician. I am confident the remedy will become very popular, as it has the merits, and will recommend itself when once used."
