DARBY'S NEW BANK

It Is Formally Inspected Yesterday – A Handsome New Building

Yesterday was a big event in Darby. The new building of the Darby National Bank was formally thrown open for inspection, and about 150 invited guests accepted the invitation. The honors were done by President Verlenden and Vice President Custer. Refreshments were served.

The new bank is a fine building, located on the main street. The finish is hard wood, and there is every modern bank improvement. It is fitted with burglar alarms from top to bottom. Thursday the bank had more money on hand than at any other time since it was organized.
