COUNTY GOSSIP – THE Media's Club's New Building about Completed – A Fine Structure

The Media Club's new building is nearly completed and will be ready for occupancy in about two weeks. It is a large and handsome building of the Colonial architectural style, with a Hollandish roof. Walter Smedley, who draw the plans of the town hall, is also the architect for this building. When the club moves into its new quarters, it will celebrated the occasion by giving a grand fete, which will be one of the events of the social season. The outside woodwork will be painted a light cream color, almost approaching white in its extreme paleness.
