MUCH INTEREST IN NEW COUNTRY CLUB – Society Watches the Growth of the
Movements – A Splendid Gold Course

Local society folks are taking a great deal of interest in the new country club which is to be located on the Snyder place and part of the Sharpless property in Nether Providence, about three-quarters of a mile beyond the Chester city limits. The golf links are already about completed on the new tract and a very convenient and handsome course it will be. On Saturday and Sunday quite a number of members of the Springhaven Golf Club, which will likely be merged into the new organization, visited the grounds and everybody was pleased with what was to be seen. The organization of the new club will be pushed vigorously and there will be a large membership from this city, Media, and the suburban towns.
