UPLAND BOROUGH.

"Adamant Wall Plaster" will hold FIRE in Check. Send for testimonials on the subject.

This place was founded in the year 1845, by the late John P. Crozer, who erected there extensive manufactories of cotton goods. These have been greatly enlarged by his sons since his death. The original mill, known as No. 1, and the brick mill known as No. 3, are operated by J. Lewis Crozer, George K. Crozer, Robert H. Crozer and George K. Crozer, Trustee, under the firm name of J. P. Crozer's Sons; the other by Samuel A. Crozer and his son John P., under the firm name of S. A. Crozer & Son. In 1683, Samuel Carpenter and Caleb Pusey, who were associated with William Penn, built a grist mill at the head of navigation on Chester creek, (the vane taken from the top of this mill is in the possession of the Pennsylvania Historical Society, in Philadelphia, and bears the initials, S. C.; C. P.; W. P.,) which was for more than a century and a half an important centre of trade, drawing its business in earlier days from points as remote as New Castle. The old house, once occupied by William Penn, still stands on Race street, Nos. 15 and 17. In 1869 Upland was made a borough. Its people are well supplied with reading matter. Mr. John Greaves, newsdealer, supplies them with the daily and weekly papers. S. A. Crozer & Son have established a library for the use of their hands. This is liberally patronized, and as a consequence of these facilities the people are highly intelligent.

Upland is also the seat of the Crozer Theological Seminary, founded and supported by the munificence of the children of the late Mr. John P. Crozer. It is beautifully located, and the campus contains besides the Seminary building, John P. Crozer Hall, used for large gatherings; Pearl Hall, occupied by the Bucknell Library, and several residences for the professors. H. G. Weston, D. D., is the President, assisted in his duties by an able staff of professors.

EDDYSTONE BOROUGH.

The town of Eddystone was incorporated into a borough December 17, 1888, and the first election for borough officers was held February 19, 1889. It is the seat of the Eddystone Manufacturing Co. (Ltd), and is located on the east side of Ridley creek, the dividing line between the borough and the City of Chester, and extends to the west bank of Crum creek, with the Delaware river as its southern and the Philadelphia Post road as its northern boundary. The works of the Eddystone Manufacturing Co. (Ltd), are very extensive, occupying twenty acres of ground, and consist of twenty separate buildings for bleaching, printing and dyeing cotton cloths. They have a capacity of 60,000,000 yards of finished goods per year. The number of hands employed is 700. The grounds around the works are beautifully laid out in a park, and the main streets are lined with stately trees. The Company have erected a fine building called Light-house Hall, and supplied it with a good library, newspapers and periodicals for the use of the boroughites.

THE COUNTY SEAT OF DELAWARE COUNTY.

The borough of Media enjoys the distinction of being the county seat of Delaware county, the Court House having been built there in the year 1850, and in the following year the several courts were removed there from Chester. It is situated on the Philadelphia and West Chester Railroad, and within forty minutes' ride of Philadelphia. The county seat, like the borough of Upland, has no saloons within its borders, and consequently furnishes but little business for the criminal court, although it has its share of distinguished lawyers.

The following are the present county officers:

Judge, Thomas J. Clayton

Prothonotary and Clerk of Quarter Sessions, W. Roger Fronefield

Recorder of Deeds, John H. Kerlin, Linwood
